Subject: input on Microsoft

To Whom It May Concern,

I would like to see the unjust action against Microsoft stopped!! Computer users have benefited from the Microsoft Windows. Bill Gates has helped the whole computer using world. The other companies were not looking to improve the computing environment and create user-friendly programs and got left behind with their approach to their operating systems and programs. If the Justice Department continues their unfounded attack on Microsoft the computer users will be the losers.

Thanks for reading my opinion.
